An Easier Way to Manage Fleet Safety and Compliance

Kokomo24/7® software helps you manage vehicle maintenance, driver safety, and NHTSA and OSHA compliance more efficiently and effectively, so you can create safer fleet operations.

Comprehensive Incident Management

- Quickly and easily create driver incident reports for analysis, documentation and compliance.
- Capture critical data with geolocation, videos, pictures, voice recordings, tags and forms.
- Ensure OSHA, NHTS, ICS and other compliance with robust forms and backend reporting.
- Assign and track follow-up activities with automated task management.
- Share instant automated notifications to keep all relevant parties informed.
- Customize a dashboard to quickly view incidents, priorities, and important data you need.
- Easily view and access incidents by type, roles, location and other details you specify.
- Export reports and custom forms to PDFs or MS Word documents for recordkeeping.

Proactive Vehicle Maintenance and Inspection

- Minimize safety and compliance risk with proactive vehicle maintenance and repair.
- Digitally log and manage all vehicle inspections, results, and follow-up tasks.
- Reduce vehicle costs with automated reminders of scheduled or required maintenance.
- Use RFID technology to tag, track, and locate all your vehicles and related assets.
- View vehicle data and reports with granular status details and timely updates.
- Instantly know the status and location of any vehicle, tool, or other enterprise asset.
- Easily manage maintenance and inspection schedules and workflows with digital tools.

ZEBRA

Tools for a Healthier and Safer Fleet Operation

Kokomo24/7® isn't just a comprehensive digital platform for incident management, vehicle maintenance, and OSHA compliance forms. It's also a complete platform for emergency and company-wide communication as well as managing better employee health and wellness.

Driver Health and Wellness Management

- Better manage physical and mental health with a complete toolset for fleet HR teams.
- Track health screenings and immunization requirements for every driver and staff member.
- Easily manage cases, individuals involved, details, and issue types with digital forms.
- Support better physical and mental health with employee screenings and evaluations.
- Enable self-evaluation with easy drag-and-drop digital surveys.
- Provide users with quick and easy telehealth communication wherever needed.
- Perform check-ins, contact tracing, and temperature scanning for workers and guests.
- Get software and telehealth tools trusted by top fleets, workplaces and communities.

Better Workplace Safety

- Easily control access to your fleet facilities and restricted areas of your operations.
- Identify and locate every worker and enforce access controls virtually anywhere.
- Track certifications, authorizations and permissions for every team member.
- Customize rules and restrictions based on user designations and location characteristics.
- Instantly know the last-known location of any worker for better emergency response.
- Validate completed security checks, patrols and head counts for better workplace safety.
- Provide anonymous or public safety incident reporting, 24/7.
- Automatically filter illegitimate claims and escalate reports with AI-powered filtering.

A Holistic Digital Technology Platform

Kokomo24/7® partners with Zebra Technologies to bring fleet safety, compliance and wellness workflows to your fingertips, using Zebra tablets, mobile computers, RFID printers, RFID readers, and ID card solutions. We deliver everything you need for end-to-end digital management of safety, maintenance, compliance, and wellness—all in easy-to-use mobile and desktop software.
